The American Society of Plastic Surgeons®

ASPS®, a non-profit organization, supports members in their efforts to provide the highest quality patient care through education, research and advocacy. It is the only organization with nearly two decades of plastic surgery statistics – 1992-2009. ASPS is the largest organization of board-certified plastic surgeons in the world. With more than 7,000 members, the Society is recognized as a leading authority and information source on cosmetic and reconstructive plastic surgery. ASPS comprises more than 94 percent of all board-certified plastic surgeons in the United States. Founded in 1931, the Society represents physicians certified by The American Board of Plastic Surgery, Inc.® (ABPS®) or The Royal College of Physicians and Surgeons of Canada.

The ASPS mission is to advance quality care to plastic surgery patients by encouraging high standards of training, ethics, physician practice, and research in plastic surgery.

ASPS Member Surgeons are uniquely qualified to perform cosmetic and reconstructive plastic surgery on the face and all areas of the body.

Consumers may visit the ASPS Website at www.plasticsurgery.org to find ASPS Member Surgeons in their area and learn more about cosmetic and reconstructive plastic surgery.

ASPS Spokespersons Network

The ASPS Spokespersons Network is a valuable plastic surgery resource. It comprises more than 100 plastic surgeons from across the United States and Canada trained and available to assist journalists.

These spokespersons provide expert perspectives on a broad range of plastic surgery topics including procedural details, the patient-physician relationship, emerging trends, teens, and minorities.

They are also knowledgeable about the Society's positions on health care reform, scope of practice and other issues that affect patient care.

To arrange interviews with members of the ASPS Spokespersons Network, contact the ASPS Public Relations Department.

www.plasticsurgery.org

The ASPS online newsroom is the most comprehensive site for journalistic research on cosmetic and reconstructive plastic surgery on the Internet. The latest news releases and the online version of the National Clearinghouse of Plastic Surgery Statistics are available.

Full color graphics and statistical graphs can be downloaded or are available by contacting the ASPS Public Relations Department.

Pre- and Postoperative Photos and B-Roll

ASPS has a complete library of pre- and postoperative images and B-roll available to the media by contacting the ASPS Public Relations Department.

ASPS Member Surgeons have the following qualifications:

- ✓ Are **certified** by The American Board of Plastic Surgery and **trained** specifically in plastic surgery.
 - ✓ Have at least **6 years** surgical training, minimum of 3 years plastic surgery training.
 - ✓ Operate only in **accredited** medical facilities.
 - ✓ Adhere to a strict code of **ethics**.
 - ✓ Fulfill continuing education requirements, including **patient safety** techniques.
 - ✓ Are **partners** with patients in cosmetic and reconstructive plastic surgery.

National Clearinghouse of Plastic Surgery Statistics

Methodology

Since 1992, the American Society of Plastic Surgeons® (ASPS®) has been the source of cosmetic and reconstructive plastic surgery statistical trends in the U.S., and this series represents nearly two decades of procedural data. ASPS has partnered with Data Harbor Solutions, a health care industry data management and technology development company, to ensure objectivity in the gathering, analysis and publication of its procedural statistics.

Since 2000, the report represents a universal and comprehensive estimate of cosmetic and reconstructive plastic surgery procedures performed by ASPS Member Surgeons as well as other physicians most likely to perform plastic surgery procedures. These physicians are all certified by American Board of Medical Specialties (ABMS) recognized boards.

ABMS is the umbrella organization for the 24 approved medical specialty boards in the United States. Established in 1933, ABMS serves to provide information concerning issues involving specialization and certification in medicine. ABMS represents physicians who are certified by The American Board of Plastic Surgery® (ABPS®), the only ABMS member board that certifies surgeons in plastic surgery of the face and entire body.

ASPS offers the most comprehensive, reliable statistics on plastic surgery procedures collected through the first online national database for plastic surgery procedures, Tracking Operations and Outcomes for Plastic SurgeonsSM (TOPSSM). This data is combined with the annual survey sent to ABMS board-certified physicians. All responses are aggregated and extrapolated to the entire population of more than 24,000 physicians most likely to perform cosmetic and reconstructive plastic surgery procedures, resulting in the most accurate census available.

Validity

Results of the survey are based on a 95 percent confidence level with a maximum error range of ± 3.9 percent.

All of the below percentage changes are for 2009 vs. 2008

2009 TOTALS

12.5 million cosmetic procedures ↓ 1%

- **1.5 million** cosmetic surgical procedures ↓ 9%
- **11 million** cosmetic minimally-invasive procedures ↑ 1%

5.2 million reconstructive procedures ↑ 5%

AGE

People age 13-19 had the least number of cosmetic procedures last year, only 2% of the total. The most common procedures for teens were: laser hair removal, nose reshaping, laser treatment of leg veins, and laser skin resurfacing.

20-29 year olds

734,000 total cosmetic procedures ↓ 2%
 249,000 surgical ↓ 8%
 485,000 minimally-invasive ↑ 1%

30-39 year olds

2.3 million total cosmetic procedures *no change*
 352,000 surgical ↓ 10%
 1.9 million minimally-invasive ↑ 2%

40-54 year olds

Make up the largest segment of cosmetic procedures – 47% of the total.

5.7 million total cosmetic procedures *no change*
 502,000 surgical ↓ 9%
 5.2 million minimally-invasive ↑ 1%

55 and over

3.1 million total cosmetic procedures ↓ 1%
 344,000 surgical ↓ 8%
 2.8 million minimally-invasive *no change*

DID YOU KNOW...

- \$10 billion spent on cosmetic procedures in the U.S., down nearly 3%
- Office-based cosmetic procedures are up 6%
- Region with the most cosmetic procedures performed in the U.S. is Mountain/Pacific – 3.6 million procedures

GENDER

Female

91% of all cosmetic procedures

11 million cosmetic procedures *no change*
 1.3 million surgical ↓ 9%
 9.6 million minimally-invasive ↑ 1%

Male

9% of all cosmetic procedures

1.1 million cosmetic procedures ↓ 2%
 200,000 surgical ↓ 9%
 900,000 minimally-invasive *no change*

ETHNIC

Cosmetic procedures only

Hispanic ↑ 12%
 African-American ↑ 5%
 Asian-American ↓ 17%

A DECADE IN PLASTIC SURGERY

Percentage change 2009 vs. 2000

Total cosmetic procedures ↑ 69%

- Cosmetic surgical procedures ↓ 20%
- Cosmetic minimally-invasive procedures ↑ 99%

2009 TOP 5 PROCEDURES

Cosmetic Surgical

	2009 vs. 2008	2009 vs. 2000
Breast augmentation	↓ 6%	↑ 36%
Nose reshaping	↓ 8%	↓ 34%
Eyelid surgery	↓ 8%	↓ 38%
Liposuction	↓ 19%	↓ 44%
Tummy Tuck	↓ 5%	↑ 84%

Facelifts were among the Top 5 Cosmetic Surgical procedures from 2000-2004, but were replaced by tummy tucks in 2005 as more people turned towards body contouring and minimally-invasive treatments for facial rejuvenation. Breast augmentation became the top surgical procedure in 2006 and has experienced substantial growth over the past decade. In 2009, 50% of all breast augmentations were done with silicone breast implants.

Cosmetic Minimally-Invasive

	2009 vs. 2008	2009 vs. 2000
Botulinum Toxin Type A	↓ 4%	↑ 509%
Soft tissue fillers	↑ 7%	↑ 164%
Chemical peel	↑ 9%	↓ 1%
Microdermabrasion	↑ 8%	↑ 5%
Laser hair removal	<i>no change</i>	↑ 21%

Sclerotherapy was among the Top 5 Cosmetic Minimally-Invasive procedures from 2000-2005 until it was replaced by soft tissue fillers.

Reconstructive

	2009 vs. 2008	2009 vs. 2000
Tumor removal	↑ 5%	<i>unavailable</i>
Laceration repair	↑ 8%	↓ 7%
Scar revision	↑ 5%	↓ 23%
Hand surgery	↑ 10%	<i>unavailable</i>
Maxillofacial surgery	↑ 5%	↑ 14%

Breast reduction was among the Top 5 Reconstructive procedures in 2000-2008, but was replaced by maxillofacial surgery in 2009.

This survey was conducted online within the United States by Harris Interactive on behalf of RealSelf.com from March 23-25, 2010 among 2,148 adults ages 18 and older. This online survey is not based on a probability sample and therefore no estimate of the theoretical sampling error can be calculated. For complete survey methodology, including weighting variables, please contact pr@realself.com
